Oumaima Toufali

Data & AI Engineer | GenAI • Agentic AI • LLMs • RAG

toufalioumaima@gmail.com | +212 637 889 320 | LinkedIn : oumaima-toufali | GitHub : Oumaima-Toufali

Profile

Data Science and Cloud Computing Engineer with hands-on experience developing production-grade AI-powered applications. Experienced in designing, deploying, and evaluating AI solutions, including LLM-powered applications, multi-agent systems, and intelligent data analysis pipelines.

Education

Engineering Degree – Data Science and Cloud Computing | ENSAO, Oujda 2023–2026

Bachelor's Degree – Mathematics and Computer Science | FPN, Nador 2020–2023

Baccalauréat – Physical Sciences (Highest Honors) | Lycée Qualifiant Beni Chiker 2018–2020

Professional Experience

AI Engineer Intern | Nexaya, Nador Feb 2026 – Jul 2026

– Designed and developed **O322**, an **AI-powered Technology Due Diligence Platform** for automated startup technology assessment.

– Designed a **multi-agent AI system** using **LangGraph**, **LangChain**, and **Claude** to orchestrate specialized agents for security, infrastructure, and code quality analysis.

– Built scalable backend services with **FastAPI**, **Celery**, **Redis**, **Supabase**, and **Docker**, integrating **Semgrep**, **Trivy**, **Radon**, and **Lizard**.

Data & AI Engineer Intern | Faculty of Sciences, Oujda Jul – Sep 2025

– Developed an AI-powered data analysis agent using **GPT-4**, **LangChain**, and **FAISS**.

– Built a **FastAPI** backend, **Streamlit** interface, and deployment pipeline with **Docker** and **Jenkins**.

Academic Projects

LabLens – AI-Powered Blood Data Analysis Platform | FastAPI, SQLModel, LangChain, React, DuckDB

– Developed an AI-powered analytics platform integrating **LangChain** and **GPT-4** for natural language querying, secure SQL generation, and interactive data visualization.

Privacy-Preserving Federated Learning System | TensorFlow, Flower, Docker, FastAPI

– Developed a privacy-preserving federated learning system with **Flower**, **Docker**, **Prometheus**, and **Grafana** for distributed AI training and monitoring.

Technical Skills

- **Programming:** Python, SQL, Java, C
- **Generative AI & Agentic AI:** LLMs, GenAI, LangGraph, LangChain, AI Agents, RAG, Prompt Engineering, Claude, GPT-4, Hugging Face
- **Machine Learning & NLP:** Scikit-learn, TensorFlow, PyTorch, Deep Learning, NLP, Transformers, BERT, Model Evaluation
- **Backend & APIs:** FastAPI, REST APIs, Celery, Python
- **Data Science:** Pandas, NumPy, Statistical Analysis, Feature Engineering, Data Analysis
- **Databases:** PostgreSQL, MySQL, MongoDB, Redis, Supabase, SQL/NoSQL
- **DevOps & Cloud:** Docker, Git, Linux, Jenkins, CI/CD
- **Visualization:** Power BI, Grafana, Streamlit

Certifications

– **Microsoft Azure AI Essentials Professional Certificate** – Microsoft

Languages

Arabic (Native) – **French** (B2) – **English** (B2)
